MEMORANDUM FOR:

25X1

Executive Secretary
National Telecommunications and Informations
Systems Security Committee
National Security Agency

SUBJECT: Draft National Telecommunications and Information
Systems Security Instruction (NTISSI),
"Controlled COMSEC Items" (U)

REFERENCE: NTISSC 1-3/57-85, dtd 4 Jan 1985,
Same Subject

1. This Agency has reviewed the subject draft and has no substantive comments. We are confident that we will be able to conform to the established standards within our existing COMSEC Material Control System. (U)

2. We do have one procedural concern. Paragraph 2 of the reference states the NTISSI will be submitted to the National Manager for promulgation. This appears to be contrary to paragraph 6 of NSDD-145 which states "The Secretary of Defense is the Executive Agent of the Government for Communications Security under authority of Executive Order 12333. By authority of this Directive (NSDD-145) he shall serve an expanded role as Executive Agent of the Government for Telecommunications and Automated Information Systems Security and shall be responsible for implementing, under his signature, the policies developed by the NTISSC." This authority was reaffirmed by paragraph 4 of the minutes of the first meeting of the NTISSC, held on 8 November 1984. (U)
